

Maize vegetable litter - talc scenting

Product price:

€45.02

Product features:

Poids: 3,8 kg

Pezzi per confezione: 4

Product attributes:

Product codes:

Reference: 1518

EAN13: -

UPC: -

Product short description:

100% NATURAL 100% BIODEGRADABLE PLANT LITTER - ANTIBACTERIAL - AGGLOMERATING - SUPER ABSORBENT - ELIMINATES ANY ODOR Natural Code plant fiber (corn) litter has such characteristics that it can be disposed of in an environmentally friendly manner through the domestic septic tank or in organic waste. Because of its formula, the entire production process is low in energy consumption, with no processing residues or discharges to the atmosphere and water. In addition to the low energy consumption during production, there is virtually zero energy consumption during disposal due to the characteristics of the raw material used, which is exclusively natural and cultivated, and the absence of silicates and fibers of mineral origin.
